

## Local Administrators and Enterprise Local Administrators

### Table Notes and Definitions

- The list of facilities (Column A, Name) below is not an exhaustive list of NCDAVE facilities. It is only a list of facilities that have either fully established a local administrator or have submitted information for a local administrator.
- The acronym “LA” (Column G) means Local Administrator and the acronym “WOAR” (Column H) means Waiting On Account Request from a local administrator.
- A value of "1" in the LA or WOAR columns indicates current local administrator status (1 = Yes), whether the person is a current LA (local administrator) or is WOAR (waiting on account request) from a local administrator.
- **Local administrators** are people at individual facilities who can control access to NCDAVE at the local level. They can approve account requests, reset passwords, and remove someone's access to the facility. Local administrators are confirmed for NCDAVE through a letter sent by the authorized person at the facility to Vital Records/State Center for Health Statistics. The WOAR status means we have a LA on file, but not yet in the [How to Establish Facilities for Local Administrators and Facility Authorizers](#)

**Use Ctrl+F on your keyboard to search for text.**

Name	City/Town	County	Office Type	Enterprise Administrator Name	Local Administrator(s) Name	LA	WOAR
